Alpha-methyldopa as antihypertensive therapy, 489
American College of Cardiology
  1964 annual convention
    abstracts of submitted papers, 93
    convocation address, 419
    convocation program, 147
    honors awarded, 566
    president's address, 424
    president's column, 149
    program, 290
    program for the ladies, 148
    scientific exhibits, 146
      awards, 568
  1965 annual convention announcement, 718, 842
  international circuit course
    No. 7 to Pakistan and India announced, 150
    No. 8 and 9 leave, 717
    report on, for 1963, 565
  committees for 1964–65, 569
  joint program with American Heart Association at AMA meeting, 718
  postgraduate education
    committee 1963 report, 565
    course in vectorcardiography announced, 151
    courses in July, 841
    program, 431
    program calendar for 1964–65, 841
  president's column, 149, 431
  workshop in Houston in March, 291
    in Indianapolis, March, 432
  young investigators' awards
    competition announced, 433, 571, 719, 843
    winners 1964 announced, 568
    committee (1964), 568
Anatomy
  of endocardial cushion defects, 162
  of single or common ventricle, 367
Anemia
  sickle cell, cardiovascular changes due to, 320
Anesthesia
  hazards of, to patients on antihypertensive therapy, 84
  left ventricular dynamics in dogs under alpha-chloralose and sodium pentobarbital, 349
Aneurysm
  dissecting, of aorta, 715
  mycotic, Tufnell on (1853), 263
Angina, intestinal, 714
Angina pectoris
  S-T depression in acute myocardial ischemia, 498
  vasomotor response to drugs, 1
Angiocardiography
  endocardial cushion defects, specific diagnosis for, 162
  in study of congenital malformation of pulmonary arterial system, 462
Aorta, dissection of, radiographic sign of, 715
Aortic knob
  calcification of, prognostic of coronary artery disease, 640
Arrhythmia
  A-V conduction disturbance due to gumma, 553
  A-V heart block, 828
  masking for myocardial infarction, 81
  nodal parasystole, 209
  paroxysmal atrial tachycardia and atrial T waves, 415
Arteriosclerosis of mesenteric artery in intestinal angina, 714
Asplenia
  congenital, with isomerism of cardiac atria, 407
  congenital cardiac disease with, differential diagnosis, 387, 407
Atrial activation, retrograde, in A-V block, 219
Atrium
  distensibility of left, greater in patients over 80, 232
  isomerism of, in congenital asplenia, 407
  pressures of left, useless in estimation of mitral regurgitation, 232
  puncture of right, by transseptal catheter, and contraindications, 558
Auscultation
  Bowditch (1846) on, 808
  interpretation of sounds and intervals, 243
A-V block, retrograde activation of atria in, 219

Blood flow, coronary, measured by precordial monitoring, 801
Blood pressure
  accuracy of measurement of, and cuff size, 688
  basal, vs. cold pressor test and hypertension, 683
Book Reviews
  An Atlas of Electrocardiography (Roesler and Fletcher), 564
  Biomedical Sciences Instrumentation (Alt), 564
  Cardiomechanics (Moulopoulos), 87
  Chemistry of Thrombolysis (von Kaulla), 840
  Dietary and Neural Factors in Hypertensino (Wilhelmj and McCarthy), 87
  Differentialdiagnose innerer Krankheiten (Hegglin), 289

Book Reviews (*continued*)
Differentialdiagnose kongenitaler Herzfehler. Synopsis von Röntgenbild, Elektrokardiogramm und Phonokardiogramm (Schad, Kunzler and Onat), 418
Electrocardiographic Interpretation (Hurst and Wenger), 840
Heparin (Engelberg), 418
Semeiologia Poligrafica Cardiologica (Forattini and Zerbini), 87
Thrombophlebitis: A Treatise on Its Etiology, Diagnosis and Treatment (Estes), 840

Cardiac amyloidosis, electrocardiogram in, 750
Cardiac arrest, resuscitation from ventricular fibrillation, 71
Cardiac catheterization
cardiac tamponade following transseptal, and contraindications, 558
electrocution during, 85
left heart, without needle puncture, 239
Cardiac cells, causes and signs of aging, 424
Cardiac murmurs, effect of respiration on, illusory, 287
Cardiac output, determinations with indicator-dilution technic, 790
Cardiac pacemaker, internal, therapy for complete heart block, 828
Cardiac performance, increased by exercise, 293
Cardiac resuscitation (see also, *Cardiac Arrest*)
closed chest, for ventricular fibrillation, 71
external massage and shock in patient with myocardial infarction, 25
Cardiomyopathy, familial, 734
Cardiopulmonary bypass, with 5% glucose in water for pump prime, 779
Cardiovascular disease
life insurance aspects of, symposium, 573
prognosis of, insurance appraisal, 576
reconditioning centers for, in Germany, 670
Catheterization, ureteral, in experimental study of pressure and pulse, 58
Cholesterol levels in predicting coronary occlusion, 624
Circuit courses, international
No. 7 to Pakistan and India announced, 150
No. 8 leaves for Malaysia, Thailand and Japan, 717
No. 9 leaves for Greece, Bulgaria and Rumania, 717
report on 1963, 565
Cochems competition, 842
Congenital anomaly
annular stenosis of left atrioventricular canal, 708
aortic and peripheral pulmonary stenosis, and mental retardation and similar facies, 471
associated with asplenia, diagnosis, 387, 407
dextrocardia, classification of, and embryologic implications, 510
endocardial cushion defects, embryology and diagnosis, 162
patent ductus arteriosus, roentgenographic features, 698
thrombosed, leads to arterial embolism, 825
phonocardiography for diagnosing difficult cases of, 188
Congenital anomaly (*continued*)
of pulmonary arteries cause of pulmonary artery hypertension, 542
of pulmonary artery and its branches, 462
risk factors for lesions amenable to surgery, 645
single or common ventricle, anatomic types, 367
surgery for, in infants, 153
tetralogy of Fallot, arterial embolism in child with, 825
Congenital heart disease (*see Congenital Anomaly*)
Coronary artery
blood flow of, increased by precordial monitoring, 801
immunity to phlebosclerosis explained, 495
insufficiency of, types, 435
occlusion
experimental, effect on blood flow, 48
and levels of cholesterol in predicting, 624
vasodilators, evaluation of, 7
vasomotor response to drugs, 1, 51
Coronary artery disease
circulating lipids in, determination of, 632
fat metabolism in, 694
insufficiency with angina, diagnosis by exercise test, 310
latent, presence and severity via exercise electrocardiogram, 603
prognosis in proved case vs. atypical chest pain, 585

Drugs
adrenaline and noradrenaline, night excretion of, in hypertension, 484
alpha-chloralose and sodium pentobarbital, comparative effects on left ventricular dynamics, 349
for angina, action in relieving, 1
antihypertensive, anesthetic hazards of, 84
dopamine, regular excretion of, in hypertension, 484
guanethidine, influence on excretion of adrenaline and noradrenaline, 484
heparin, site of injection prevents retroperitoneal hemorrhage, 329
metaraminol, effects on hemodynamics, 10, 15
nitrates as vasodilators, 1, 7
nitroglycerine, effect on blood flow to myocardium, 51
penicillin therapy for bacterial endocarditis, 820
Segontin® as vasodilator, 7
thiazides, influence on excretion of adrenaline and noradrenaline, 484
vasodilators, 1, 7

Ectopic beats
atrioventricular, with coupling in nodal parasystole, 209
ventricular, with coupling, 198
Electrocardiogram
in cardiac amyloidosis, 750
exercise
in coronary artery disease, 603
in coronary insufficiency, 310
in familial cardiomyopathy, 734
in pregnancy, 774

Electrocardiogram (*continued*)
prognostic value in coronary artery disease, 585
QRS in intraventricular block, 41
QRS voltage criteria of left ventricular hypertrophy, 619
T wave changes in normal persons increase mortality ratio, 598
T waves in paroxysmal atrial tachycardia, 415
ventricular ectopic beats and coupling, 198
wave size diagnostic, 715
Embolism, arterial, from thrombosed ductus arteriosus, 825
Embryology of endocardial cushion defects, 162
Endocarditis, Candida, following penicillin therapy, 820
Epidemiology
heart disease in South Africa, 650
myocardial infarction
in Africans, Koreans, Japanese and New Yorkers, 30
Exercise
effect on cardiac performance, 293
Exercise test, dynamic
criteria in coronary insufficiency, 310
in latent coronary artery disease, 603

Fat metabolism, in coronary artery disease, 694
Fibromyxosarcoma of pulmonary artery, 547
Fistula, arteriovenous, indicator-dilution curves in, 76

Genetics, in familial cardiomyopathy, 734
Gumma, heart block due to, 553

Heart, aging changes and their causes, 424
necrosis of, 435
Heart block
complete, treated by internal pacemaker, 828
due to solitary gumma, 553
Heart disease
clinical prognostications of, 573
epidemiology of, in S. Africa, 650
idiopathic, in South Africa, 650
statistical approach to, in insurance, 573
Heart failure
congestive, effect of restricted venous return in, 782
intractable, associated with fibromyxosarcoma of pulmonary artery, 547
left ventricular, acute, pulmonary venous pressure and dyspnea in, 301
Heart sound
split second, beat-to-beat variation in normal respiration, 333
Heart sounds, description and interpretation of, 243
Heart valves, mitral and tricuspid incompetence in pulmonary stenosis repaired, 537
Hemodynamics
affected by metaraminol, 10, 15
and auscultation, 243
cardiac output calculations unaffected by indocyanine green, 790
effects of restricting venous return on, 782
indocyanine green injections do not change calculations of cardiac output, 790
isometric contraction and ejection time measured by vibrocardiogram, 340
left ventricular, under alpha-chloralose and sodium pentobarbital in dogs, 349
in malformations of pulmonary arterial system, 462
in nodal parasystole, 209
in pulmonary stenosis, 441
rate and pressure changes in hypercalcemia, 798
split second heart sound, beat-to-beat variation, 333
ventricular ectopic beats with coupling, 198
Hemopericardium complicating hemophilia, 278
Hemophilia complicated by hemopericardium, 278
Heparin therapy, retroperitoneal hemorrhage prevented by injection into abdominal fat pad, 329
Historical milestones
Peter Latham on the clinician (1847), 532
Tufnell on mycotic aneurysm (1853), 263
the young stethoscopist (Bowditch, 1846), 808
Hypercalcemia, slows heart rate and raises systemic pressure in dog, 798
Hypertension
alpha-methyldopa selective therapy for, 489
cold pressor test vs. basal blood pressure, prognostic value of, 683
excretion of adrenaline, noradrenaline and dopamine in, 484
pulmonary arterial, due to anomaly, 542
therapy, standard, 489
Hypothermia, immersion, myocardial damage by, 355

Indicator-dilution technic, cardiac output determination by, 790
Indicator-dilution curves in patients with arteriovenous fistulas, 176
Infarction, myocardial
cardiac massage for arrest due to, 25
effects of metaraminol on, 15
geographic pathology of, 30
without arrhythmia, 81
International meetings,
conference on preventive cardiology, Burlington, Vt., 291
IV European congress of cardiology, 842
IV World congress of cardiology proceedings available, 842
Intraventricular block, experimental, electrocardiogram in, 41
Ischemia, myocardial, acute, in angina pectoris, 498

Life insurance
aspects of cardiovascular disease, symposium on, 573
cholesterol levels and risk of coronary occlusion, 624
and coronary artery disease, 585, 640
criteria for left ventricular hypertrophy, 619
criteria for prognosis of cardiovascular disease, 576
for persons with congenital anomalies, 645
T wave changes in normal person increase mortality ratio, 598
Lipids, abnormalities of, methods of study, 632

Mental retardation with aortic and peripheral stenosis and similar facies, 471
Mitral regurgitation, estimation of, by left atrial pressure curves unsatisfactory in combined mitral valve lesions, 232
Mitral stenosis, supravalvular, 708
Myocarditis, cause of left ventricular constriction in child, 270
Myocardium (see also, *Infarction, myocardial*)
blood flow to, in experimental coronary occlusion, 48
damage to, by immersion hypothermia, 355
diseases of, in infancy, 721
effect of nitroglycerin on blood flow to, 57
effects of sickle cell anemia on, 320
necroses of, coronary and metabolic, 435

Necrosis, of myocardium, coronary and noncoronary, 435
Needle puncture of interatrial septum unnecessary in left heart catheterization, 239
Nodal parasystole, 209

Oximetry in diagnosis of small shunts, 64

Pediatrics
Frank vectorcardiographic changes in normal infants, 757
myocardial diseases in infancy, 721
vectorcardiographic patterns in biventricular enlargement in first month of life, 767
Peripheral pulmonary stenosis, 441, 451, 462
with aortic stenosis, mental retardation and similar facies, 471
Phlebosclerosis, immunity of coronary vein to, 495
Phonocardiography, intracardiac, in congenital and rheumatic heart disease, 188
Postgraduate education programs
calendar 1964-65, 841
in July, 841
Practice of medicine, clinical medicine also scientific, 419
Precordial vibrations recordings on left ventricular pressure curve and vibrocardiograms similar, 226
Pregnancy, electrocardiographic changes in, 774
President's column
thirteenth annual convention, 149
synergism of scholarship, 431
Pressure tracing, left ventricular, resembles vibrocardiographic information, 226
Publisher's information page, 152, 292, 434, 572, 720, 844
Pulmonary artery
absence of the right, 462
anomaly, cause of pulmonary hypertension, 542
congenital malformation of, 462
fibromyxosarcoma of, 547
stenotic lesions of, 441, 451, 462, 471
Pulmonary venous pressure and dyspnea in left ventricular heart failure, 301

QRS
changes during pregnancy, 774
changes in biventricular enlargement in first month of life, 767
voltage criteria of left ventricular hypertrophy, 619

Radiocardiogram, measure of relative coronary blood flow, 801
Renal artery occlusion, experimental, effect on ureteral pressure and urinary flow, 58
Research problems in cardiology related to smoking outlined, 842
Respiration
effect of, on intensity of cardiac murmurs illusory, 287
influence on split second heart sound, 333
Resuscitation
closed chest, for ventricular fibrillation, 71
and shock in myocardial infarction, 25
Retroperitoneal hemorrhage in heparin therapy prevented by injection into abdominal fat pad, 329
Review
congenital dextrocardia, 510
patent ductus arteriosus, 698
Rheumatic heart disease, phonocardiography in, for diagnosing difficult cases, 188
Roentgenography of patent ductus arteriosus, 698

Shunt
detected by oximetry and breathing oxygen, 64
right to left, in pulmonary stenosis with valvular incompetence repaired, 537
Social insurance, German reconditioning centers, 670
Sphygmomanometer cuff size influences readings, 688
S-T depression
directly related to severity of impaired coronary circulation, 603
in acute myocardial ischemia and angina, 498
in exercise test, 603

Stenosis
aortic, with peripheral pulmonary stenosis and mental retardation, 471
pulmonic
peripheral, 451
with and without lesions, 441, 451
with mitral tricuspid incompetence repaired, 537
Surgery
for congenital cardiovascular disease in infants, 153
decreases risk, 645
open heart, in Jehovah Witnesses, pump primed with 5% glucose, 779
Symposium, life insurance aspects of cardiovascular disease, 573–697

T loop, study of, in biventricular enlargement in first month of life, 767
T wave
changes during pregnancy, 774
changes in normal persons increase mortality ratios, 598
Test
cold pressor test vs. basal blood pressure and subsequent hypertension, 683
exercise tolerance test, 310, 603

Vectorcardiogram
Frank, evolution of, in normal infants, 757
patterns of biventricular enlargement of heart in first month of life, 767
Vectorcardiography, postgraduate courses announced, 151
Ventricle
precontraction area in WPW syndrome, 77
single or common, anatomic types, 367
Ventricle, left
constriction of, due to myocarditis in child, 270
exercise increases mechanical efficiency of, 293
hypertrophy of, criteria of, 619
isometric contraction and ejection time by vibrocardiogram correlates with catheterization, 340
performance in dogs less affected by alpha-chloralose than sodium pentobarbital, 349
Ventricular fibrillation from electrocution during cardiac catheterization, 85
Vibrocardiogram
indirect measure of isometric ejection and contraction time, 340
recordings resemble left ventricular pressure tracing, 226

Wolf-Parkinson-White syndrome, precontracting area proved, 77
type A and B excitation, 284
